*Towards Analytical Thinking...*

# Properties & Questions

Can't a property that is identified through a buffalo also be identified through a jasmine?

What are the properties that can be identified through both?

- |                         |                           |
|-------------------------|---------------------------|
| ❖ Are they divisible?   | ❖ Are they reorderable?   |
| ❖ Are they comparable?  | ❖ Are they substitutable? |
| ❖ Are they connectable? | ❖ Are they satisfiable?   |
| ❖ Are they disturbable? |                           |

How can a property like divisibility that is identified through a thing also be identified through all the others, if everything changes? Does everything change? Is a property nothing?

Can't a property that is identified through a buffalo also be identified through an idea?

What are the properties that can be identified through both?

- |                         |                           |
|-------------------------|---------------------------|
| ❖ Are they divisible?   | ❖ Are they reorderable?   |
| ❖ Are they comparable?  | ❖ Are they substitutable? |
| ❖ Are they connectable? | ❖ Are they satisfiable?   |
| ❖ Are they disturbable? |                           |

How can a property like divisibility that is identified through a thing also be identified through all the others, if everything changes? Does everything change? Is a property nothing?

Can't a property that is identified through a one also be identified through any other one?

Can't a property that is identified through a thing also be identified through any other thing?

Research is the search to find whether the property identified through a one is common to all or not.

Is no property common?
